**Academic Vocabulary Definitions: Science**

Academic Vocabulary	Definition of the Word and an Example:
1. behavioral adaptation	
2. camouflage	
3. carnivore	
4. cell	
5. cell membrane	
6. cell wall	
7. cytoplasm	
8. chemical energy	
9. climate	
10. condensation	
11. consumer	
12. deposition	
13. eclipse (solar and lunar)	
14. ecosystem	
15. electricity	
16. energy pyramid	
17. erosion	
18. food web	
19. friction	
20. herbivore	
21. lunar cycle	
22. mass	
23. metamorphosis (complete and incomplete)	
24. migration	
25. mimicry	
26. omnivore	
27. opaque	
28. physical adaptation	
29. physical change	

30. producer	
31. radiant energy	
32. reflection	
33. refraction	
34. reproduction	
35. transparent	
36. translucent	
weathering	
37. behavioral adaptation
