

Name: \_\_\_\_\_

Bridging the Gap

Geometry Quiz Pre-Assessment

Match Definitions

1. \_\_h\_\_ point

2. \_\_j\_\_ ray

3. \_\_i\_\_ line

4. \_\_k\_\_ line segment

5. \_\_a\_\_ acute angle

6. \_\_e\_\_ obtuse angle

7. \_\_g\_\_ straight angle

8. \_\_f\_\_ right angle

9. \_\_c\_\_ degree

10. \_\_d\_\_ protractor

11. \_\_l\_\_ vertex

12. \_\_b\_\_ angle

a. an angle that measures less than 90 degrees

b. two rays with a common endpoint

c. the common unit of measurement for angles

d. instrument used to measure angles

e. an angle that measure more than 90 degrees but less than 180 degrees

f. an angle that measures 90 degrees

g. an angle that measures 180 degrees

h. exact location

i. a straight path that goes on forever in both directions

j. a straight path that goes on forever in one way

k. a piece of a line

l. the point at where two rays meet
