

# Genetics

## Across

5. Two different alleles for a trait
7. The genetic makeup of an organism
8. A trait that is covered over by another form of the same trait
9. Offspring of mixed ancestry
10. Outward appearance of an organism
11. An alternate form of a gene
12. Offspring of the same ancestry

## Down

1. A trait that covers over another form of that trait
2. A chart showing a trait through generations of a family
3. Two alleles that are the same for a trait
4. A tool used to predict the probability of certain traits in an offspring
5. The passing of traits to the offspring from the parents
6. The study of how traits are inherited
