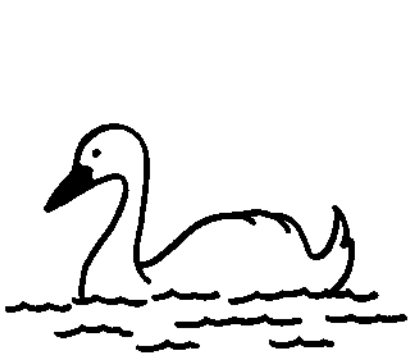
THE SUMMER OF THE SWANS

I. Directions: Sara had a very poor self-concept. Surveys have shown that teens across the country fall into this same category. Almost everyone would like to change something about himself or herself. In the space below, tell what you would change about yourself if you could. Explain how you hope to benefit from this change.



II. Directions: Put these events in the correct order. Write the numeral *1* in front of the event that happened first. Continue numbering the remaining items.
